

WGL ADVISORY SERVICES
AI POWERED SOLUTIONS

Engineering Fees Booklet

AI-powered technical documentation, commercial packs and analytics support — delivered with professional review and blue-chip presentation.

- Failure investigations and technical reports (root-cause, annexures, photos)
- SOPs, checklists and job cards for workshop and field teams
- Tender / proposal packs and commercial documentation
- Pricing models, costing tools and rebuild workbooks
- Private AI assistant (GPT) trained on your documentation and workflows

Indicative fee ranges (excl. VAT) • Final quote depends on scope, urgency, and information quality.

How we work

WGL Advisory Services – Engineering combines disciplined professional drafting with responsible AI acceleration. AI helps us move faster; every deliverable is reviewed for clarity, consistency and defensibility before release.

<p>1) Scope & Inputs We confirm objectives, deliverables, and what information is available (photos, history, measurements, usage data).</p>	<p>2) Draft & Review We structure the document, build annexures and calculations, and share a review draft where applicable.</p>	<p>3) Final Pack We issue a clean final PDF/Word pack with version control and professional formatting, ready for clients, OEMs, insurers or auditors.</p>
--	--	--

Turnaround (indicative)

Standard turnaround is typically 3-5 business days once complete inputs are received. Priority work (24-48 hours) can be accommodated where capacity allows and may attract a [URGENT_PREMIUM]% premium.

Key pricing factors

- Size and complexity of the company and fleet
- Number of documents and depth required
- Urgency / turnaround time
- Quality and completeness of information you provide (photos, history, data)

What clients receive (standard)

- Blue-chip formatting and structured annexures
- Clear assumptions, version control and sign-off points
- Files delivered in PDF and/or editable format (Word/Excel) as agreed
- Confidential handling of all documentation and operational data

Indicative fee ranges

All fees below are indicative and exclude VAT. The final quote is confirmed once scope, urgency and input quality are assessed.

Failure & Technical Reports	
Deliverable	Indicative fee range (excl. VAT)
Simple component report (e.g. gearbox, pump, motor)	R750 - R1,500
Full machine / multi-component report (annexures, photos, root-cause analysis)	R1,500 - R3,500
Large / high-risk investigations (multiple units or long history)	R3,500 - R7,500

Checklists, SOPs & Job Cards	
Deliverable	Indicative fee range (excl. VAT)
Single checklist or job card (service, inspection or strip report)	R500 - R1,200
Small SOP pack (3-5 procedures, checklists included)	R1,800 - R4,500
Full workshop / process SOP pack (6-15 documents)	R4,500 - R9,000

Tenders, Proposals & Commercial Documents	
Deliverable	Indicative fee range (excl. VAT)
Short proposal / motivation letter for a job	R750 - R1,800
Technical proposal for supply/rebuild of equipment (up to ±10 pages)	R2,500 - R6,000
Full tender response pack (technical + capability + annexures)	R4,000 - R12,000

Indicative fee ranges (continued)

Pricing Models, Quotation Templates & Excel Tools	
Deliverable	Indicative fee range (excl. VAT)
Simple quote template or one-page costing tool	R1,500 – R3,000
Multi-service costing model (labour, parts, margin by product line)	R3,000 – R7,500
Full rebuild pricing workbook (machines, components, scenarios)	R7,500 – R15,000

Parts, Stock & Inventory Support	
Deliverable	Indicative fee range (excl. VAT)
Clean-up and structure of a single parts list / catalogue	R2,000 – R5,000
Multi-machine parts library (grouped by model/system)	R5,000 – R12,000
Advisory on basic min/max and re-order logic (based on usage data)	R3,000 – R9,000

Training Material, Toolbox Talks & Cheat Sheets	
Deliverable	Indicative fee range (excl. VAT)
One toolbox talk or 1-2 page cheat sheet	R500 – R1,200
Short training module (5-10 pages or slides) for artisans/technicians	R1,800 – R4,000
Full onboarding pack or multi-topic training bundle	R3,500 – R8,000

Indicative fee ranges (continued)

AI Assistant / Private GPT for Your Business	
Deliverable	Indicative fee range (excl. VAT)
Starter AI assistant trained on your own docs (limited scope, single team)	R5,000 – R12,000 once-off
Advanced assistant (more docs, multiple workflows)	R12,000 – R25,000 once-off
Ongoing content updates & tuning	R1,500 – R4,000 per month

Management, Strategy & Analytics Support	
Deliverable	Indicative fee range (excl. VAT)
Once-off job/profitability review (single business unit)	R3,000 – R7,500
Broader analysis of jobs, margins and pricing strategy	R7,500 – R18,000
Business planning / funding support pack (narrative + numbers)	R10,000 – R25,000

Retainer Options (AI + Consulting Support)	
Deliverable	Indicative fee range (excl. VAT)
Small workshop / early-stage (light support, documents as needed)	R2,500 – R5,000 p.m.
Growing company (regular documents, proposals, reports)	R6,000 – R12,000 p.m.
Larger / multi-site operation (priority turnaround, ongoing optimisation)	R15,000 – R30,000 p.m.

Discounts, referral programme and add-ons

We keep pricing predictable and transparent. Where appropriate, we can apply structured discounts for bundled work and long-term partnerships. All discounts and referral credits are subject to approval and confirmation in writing.

Bundle & loyalty savings (by approval)

- Multi-deliverable bundle: up to [BUNDLE_DISCOUNT]% on the labour portion when 3+ documents are commissioned together.
- Retainer client benefit: preferred rates on once-off items outside the monthly scope ([RETAINER_BENEFIT]).
- Repeat engagements: discounted re-work where the technical baseline and templates already exist ([REPEAT_WORK_DISCOUNT]).

Referral thank-you

When a referral results in a confirmed engagement and payment, we can provide a thank-you in one of two ways (choose one):

- 1) Referral credit of [REFERRAL_CREDIT] applied to your next invoice, or
- 2) Referral fee of [REFERRAL_FEE] (or [REFERRAL_PERCENT]% of the first invoice, capped at [REFERRAL_CAP]).

Referral terms are confirmed case-by-case to ensure fairness and compliance.

Common add-ons (quoted separately)

- Site visit / physical inspection (where required)
- Additional stakeholder interviews
- Expanded annexures and photo packs
- Complex calculations and scenario modelling

Engagement notes and next steps

This booklet provides indicative ranges to support budgeting and procurement. Formal engagement terms, scope and timelines are confirmed in writing prior to commencement.

Commercial notes

- Fees exclude VAT.
- Where inputs are incomplete or inconsistent, additional time may be required and will be agreed before proceeding.
- If deliverables are required for regulatory, insurance, contractual or dispute contexts, we recommend a short scoping call to confirm evidentiary requirements.

Client responsibilities (to keep fees predictable)

- Provide the best available history, photos, measurements, maintenance records and usage data.
- Confirm the intended audience (internal, client, insurer, OEM, auditor) and the required format.
- Review drafts promptly where review cycles are included in scope.

Request a quote

Send: (1) the problem statement, (2) photos / history, and (3) the required deadline to wgladvisoryservices@gmail.com. We will revert with a scoped quote and delivery timeline.
